More Than 200 Cats Need Homes in San Diego

SDHS Hopes You Will Give an Adult Cat a Loving Home

SAN DIEGO — With kitten season in full swing, adopters are flocking to San Diego Humane Society to find a young kitten and bypassing many of the available cats. SDHS now has an abundance of adult cats (7 months and older) who are in need of a loving home.

SDHS reminds potential adopters about the benefits of adopting an adult cat:

1. Adult cats are already litter box-trained, so you won't need to worry about accidents in the house like you might with a new kitten.
2. Kittens are adorable, but they need more attention, training and patience than adult cats.
3. Unlike kittens, adult cats are much more relaxed. They sleep around 16 hours a day.
4. When you adopt an adult cat, you know what you're getting. While kittens are still developing, adult cats are well established. Adopters won't need to guess what type of temperament they will turn out to have.
5. When you adopt an adult cat, you are truly helping an animal in need. Kittens are often adopted very quickly from shelters, while adult cats often spend months waiting for a special family to come along.

San Diego Humane Society has adult cats available for adoption at all three campuses: Escondido, Oceanside and San Diego. You can view our available cats on our website at sdhumane.org.

To schedule an interview or for more information, please contact Dariel Walker at (619) 250-6801 or dwalker@sdhumane.org.
